

# RELEASE-RITE<sup>®</sup> 2800

## Rubber Release Agent

**RELEASE-RITE<sup>®</sup> 2800 is an aqueous semi-permanent rubber release agent intended for silicone rubber molding operations. The tough, durable film will not transfer to the molded part and provides multiple releases before reapplication is necessary. The product provides a high level of slip to improve rubber flow, part filling and provide release for difficult mold configurations.**

### Features

- First choice for silicone rubber
- Multiple releases with one application
- Highly Durable Film
- High slip
- Ready to use

#### Typical Properties

Appearance:	Slightly hazy Fluid
Odor:	Mild
Flash Point:	None

#### Application

This product is designed to be used as received.

1. Thoroughly clean mold surface.
2. A light spray application is best, while wiping with a cotton cloth or brush application can also be used.
3. Spray apply three light coats to mold surface allowing the film to dry before applying the next coat.
4. Allow film to fully cure at least 5 minutes before resuming molding operations.
5. Reapply as needed using one light coat curing at least one minute before molding resumes.

A qualified Cross Chemical representative will be happy to assist you in determining the proper use and application of our products.

#### Handling & Storage

Containers:	5gal (18 liters), 55gal (207 liters) and tote quantities available.
Shelf Life:	1 year under original seal, unopened containers.
Disposal:	Dispose of product appropriately, following all federal, state, and local regulations.
Freezing:	Do not freeze.
Safety & Health:	Refer to the product Material Safety Data Sheet (MSDS).
